Past business / action items:

- Approval is requested for the minutes from the February 8th, 2023 meeting as drafted - Approved.

Agenda:

- Ongoing tracking [spreadsheet](#) of specifications progressing through the [JESP](#) version [lifecycle](#)
- Ongoing work on and resolve Specification Committee's process enhancements items including those identified in the Jakarta EE 10 retrospective:

- Issues with the "enhancement" label are [here](#)
- Enhancement labeled issues in a project board is [here](#)

See the issues in the board for updates

- Follow-up on three topics from February 8th meeting:
 - Optional features approved resolution: "An individual specification can have optional features, however when a component specification is included in the Platform and Web Profile, and Core Profile an optional feature must be explicitly declared as required, otherwise it is not required. This requirement is noted in the Platform specification."
Action: Create the issues of what needs to be done including a draft of the Jakarta EE semantic versioning model [Scott Stark]
Scott was not on the call, Paul took the action to follow-up with him with an email.
 - Formalizing the compatibility requirements for specifications in the [JESP](#) [1.] and then updating the [Compatibility Requirements page](#) [2.] of the Jakarta EE Platform project

Action: Create the issues of what needs to be done including a draft of the Jakarta EE semantic versioning model [Scott Stark]
